

# Safeguard Your Dealership With Our 24/7 Security Ecosystem

The FTC's Safeguards Rule for Motor Vehicle Dealers is in Effect

**UPDATE:** The FTC now requires non-bank financial institutions, including motor vehicle dealers, to report when they discover that information affecting 500 or more people has been acquired without authorization. Reports must be submitted within 30 days of discovery.

If your automotive dealership is need of robust cybersecurity, we can help. Our cutting-edge services check off many of the guidelines within the rule.

The FTC's rule states that all auto dealerships need to develop, implement, and maintain an information security program designed to protect customer information. The most direct way for you to abide by these rules is through continuous monitoring of your network(s).

This is made easy with our security stack. We are here to alleviate your stress as you navigate the strictest security measures the industry has experienced.

# We will help you:

- · Launch your cybersecurity program
- · Implement team-wide security best practices and training
- · Monitor your other service providers
- · Maintain your dealership's security status

## With our security stack, your dealership will benefit from:

Disrupt the hacker timeline.

MDR FEATURES

Ransomware Response
